## GLOBAL STRATEGIC OBJECTIVE:

### Train Leaders to:

The "harvest is plentiful, but the workers are few"; providing church planting training to indigenous church leaders is an effective way to equip workers for the harvest.

### Plant Churches through:

Recognizing the receptivity of youth between the ages of 4 and 14 to learning the new churches strategically employ a youth ministry focus.

### Discipling Children:

These young people are known to have an impact on their families. The result is new churches that are established quicker and grow faster.
